RURAL DISTRICT OF WAINFORD

ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH FOR 1964

To: The Chairman and Members of Wainford Rural District Council.

Mr. Chairman, Ladies and Gentlemen,

As your Acting Medical Officer of Health, it is not possible for me to comment on the past year's work, apart from saying that the statistics presented herewith indicate that the health of the district follows that of the country as a whole.

The main sanitary work is detailed in the Chief Public Health Inspector's report which is included in the Annual Report.

I would like to take this opportunity of expressing my appreciation of the help I have enjoyed from all members of the staff, which has made my short period of Acting Medical Officer of Health an easy and pleasurable one.

I have the honour to be,

Your obedient Servant,

A. C. GEE,

Acting Medical Officer of Health.

Council Offices,
1 Saltgate,
Beccles, Suffolk.

Telephone No. Beccles 2004/5.

23rd July, 1965.

GENERAL STATISTICS

Area (in acres)	44,900
Registrar-General's estimate of population (mid-1964)	6,450
Number of inhabited houses (estimated)	2,132
Rateable Value	£110,588
Product of Penny Rate (estimated)	£450
Number of Parishes	33

	<i>Wainford R.D.</i>	<i>England and Wales</i>

ADJUSTED BIRTH AND DEATH RATE : COMPARABILITY FACTOR

Local birth rates are expressed in terms of population. These populations are estimated by the Registrar General and comprise persons of all ages, including those who have no influence on the birth rate. These latter do, however, affect the birth rate in that a high proportion of them in a population tends to lower, and a small proportion tends to raise the true rate. The size of this proportion will vary in different areas and, therefore, the elimination of standardization of such a factor will give a truer comparison between areas.

The Registrar General issues a comparability factor on these lines. Multiplication of the crude birth rate of an area by the comparability factor gives the adjusted birth rate and can be compared with the crude rate for England and Wales.

The comparability factor for deaths is obtained in a similar way to the above. The factors for certain areas, where rapid increase or reduction in the population materially affects its comparison by sex and age groups, are also adjusted on that account. Death rate area comparability factors are adjusted to take account of the presence of any residential institutions in each area. Birth rate area comparability factors are also adjusted to take account of the presence of sterile populations in institutions for the mentally ill or mentally deficient.

**TABLE SHOWING THE MORE IMPORTANT CAUSES OF DEATH,
NUMBERS AND PERCENTAGES**

<i>Cause of Death</i>	<i>No. of Deaths</i>		<i>Percentage</i>	
	1963	1964	1963	1964
Diseases of circulatory system	38	27	51.35	42.18
Vascular lesions of nervous system	6	11	8.11	17.18
Maligant diseases	10	12	13.51	18.75
Pneumonia and Bronchitis	6	7	8.11	10.94
Influenza	1	1	1.35	1.56
All other causes	13	6	17.56	9.37
<i>Total:</i>	74	64	99.99	99.98

In 1964 78% of all deaths fell under the first three headings. The comparable figure for 1963 was 73% and for 1962 was 68%.

WATER SUPPLIES

- I. At the request of the Ministry of Health additional information on water supplies is incorporated in this report.
- II. The water supply of the Rural Area has been satisfactory in quality and quantity.

The District is supplied from three different sources situated at Holton, Barsham and Bungay and copies of typical bacteriological and chemical analyses taken from these supplies are given below.

Certificate of Analysis of Water — RAW Water

Sample received from	East Anglian Water Company
Marked	No. 1 — Holton Headworks
Appearance when received	Clear yellow deposit
Nature of Deposit	Iron Compounds
Colour	Pale Yellow
Odour	Nil
Reaction	Neutral
Taste	Satisfactory
						pH 7.2

Results of Chemical Analysis in parts per Million

Ammoniacal nitrogen	0.12
Albuminoid nitrogen	0.05
Nitrate nitrogen	Nil
Nitrite nitrogen	0.16
Chloride as chlorine	174
Oxygen absorbed (4 hr. 27 degrees C.)	0.60
Hardness as CaCO ₃ :						
Total	405
Carbinate (temporary)	265
Non-carbonate (permanent)	140
Free carbon dioxide	39
Total solids (at 180 degrees C.)	775
Iron (total)	3.9
Metals in solution other than iron	Nil

Remarks:

This water is of good organic quality and its bacteriological condition is excellent. Its chemical characteristics are well maintained and in our opinion this water is well adapted to the purpose of a public supply.

Certificate of Analysis of Water — RAW Water

Sample received from	East Anglian Water Company
Marked	Public Supply — Shallow Well, Bungay
Appearance when received	Clear
Nature of Deposit	Nil
Colour	Nil
Odour	Nil
Reaction	Neutral
Taste	Satisfactory
						pH 7.3

Results of Chemical Analysis in Parts per Million

Ammoniacal nitrogen	0.05
Albuminoid nitrogen	0.07
Nitrate nitrogen	1.0
Nitrite nitrogen	Nil
Chloride as chlorine	54
Oxygen absorbed (4 hr. 80 degrees F.)	0.60
Hardness as CaCO ₃ :						
Total	335
Carbonate (temporary)	235
Non-carbonate (permanent)	100
Free carbon dioxide	23
Total solids (at 180 degrees C.)	500
Iron (Total)	0.24
Metals in solution, lead copper, zinc	Nil

Remarks:

The organic quality of this water is good and its bacteriological condition is excellent. The chemical characteristics of this water are well maintained.

The trace of iron still present in the water is insufficient to cause any trouble. In our opinion the water is suitable for drinking and general purposes.

Bacteriological Examination Report

Nature of Sample	Water from bores, main piped supply.
Plate Count:						
Colonies per ml. on agar at 37 degrees C., 2 days						Nil
Probable number of coliform bacilli per 100 ml.						
MacConkey 2 days, 37 degrees C.	Nil
Number of Bact. Coli. (type I)	Nil

Remarks:

This result is very satisfactory.

During the year twenty-four bacteriological samples were taken from the three sources.

III.	The waters are not liable to have plumbo-solvent action. All the samples show the characteristic hardness of East Anglian waters.						
IV.	No contamination of any form occurred during the year						
V.	Number of dwelling houses supplied direct to the houses	1395
	Number of dwelling houses supplied by means of stand-pipes	296
						Total	1691
	Total number of inhabited houses	2132

PUBLIC SWIMMING BATHS

There are no public swimming baths in the area.

COMMON LODGING HOUSES

There are no common lodging houses in the area.

NATIONAL ASSISTANCE ACT 1948, SECTION 47

NATIONAL ASSISTANCE ACT 1951

No action was taken under either Act during the year.

RURAL DISTRICT OF WAINFORD
ANNUAL REPORT OF THE CHIEF PUBLIC HEALTH INSPECTOR FOR 1964

To: The Chairman and Members of Wainford Rural District Council.

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in presenting my eighth Annual Report in conjunction with the Medical Officer of Health.

The year has been one of steady progress in every field and especially with regard to the provision of main sewerage facilities. The Council continues to look closely into the possibilities of sewerage further areas and, notwithstanding the ever rising costs, decided to proceed with a further three schemes during the year.

Private house building in the area gathered momentum, the main emphasis being on Worlingham and the number of dwellings improved with the help of grants again increased.

All the staff have given loyal service and my Deputy, Frank Pooley, has continued to shoulder the bulk of routine Public Health work from which stems the efficient operation of the department's Public Health section.

I am,

Your obedient Servant,

IVAN S. ARMSTRONG,

*Chief Public Health Inspector,
Engineer and Surveyor.*

REPORT OF THE CHIEF PUBLIC HEALTH INSPECTOR

HOUSING

(a)	Number of houses inspected during year	298
(b)	Number of houses found to be unsatisfactory	169
(c)	Number of houses rendered fit:								
	By informal action	206
	By formal action	—
(d)	Demolition Orders secured	5
(e)	Closing Orders made	—
(f)	Undertakings accepted	1
(g)	Houses demolished under (d)	14
(h)	Houses demolished by informal action	—

(i) Housing Survey:

A village by village housing resurvey has continued throughout the year. Owners of all suitable property are being asked to provide modern amenities and take advantage of the grant schemes wherever possible.

Ten parishes have now been completed these being All Saints, Barsham, Brampton, Holton, North Cove, Ringsfield, Westhall, Wissett and Worlingham.

(j) Provision of Housing accommodation.

	By Local Authority		By Private Enterprise	
	Permanent	Temporary	Permanent	Temporary
1. Dwellings completed during year	—	—	78	—
2. Number of houses in course of construction on 31st December, 1964 ..	—	—	53	—
3. Total number of houses owned by Council on 31st December, 1964	448	—	—	—

(k)	Council houses available for letting during year	15
(l)	Number of dwellings acquired by the Council	—
(m)	Dwellings in course of acquisition by the Council	3

(n) Council House Modernisation

The Council proceeded with its policy of acquiring structurally sound cottage property for future modernisation.

Schemes for the improvement of the older Council dwellings involving 60 properties were completed, proceeding or in the course of preparation as the year closed.

(o) Overcrowding:

One case in District during the year.

(p) Improvement Grants:

Discretionary Standard

Number of dwellings in respect of which applications were made during the year	10	39	
Number of dwellings in respect of which grants were approved during the year	14	39	
Total number of dwellings improved during year ..			58
Total number of dwellings approved for grant to 31st December, 1964	152	158	310
Total number of dwellings completed at 31st December, 1964	139	118	257

(q) Certificates of Disrepair:

Applications received	—
Certificates issued	—

(r) Moveable Dwellings:

Number of site licences	16
Inspections made	58
Contraventions remedied	7

FOOD HYGIENE

A complete survey of all premises was carried out during the year.

(a) Number of food premises 50

(b) Inspections made: 412
Premises found to be unsatisfactory 31
Premises rendered satisfactory 29

(c) Premises registered under the Food and Drugs Act, 1955:

Ice Cream — storage and sale	21
Sausages — preserved foods	3

(d) Poultry Condemned:

Turkeys	146
Chickens	14,247
Total weight in lbs.	25,594

(e) Food Factories:

At Flixton and Holton, the factories processing chickens and turkeys increased production. The managements again co-operated with your officers to ensure that a high standard of cleanliness was maintained throughout the processes. This work involves a large proportion of an Inspectors' time.

RODENT CONTROL

(a) Inspections and treatments:

Number of premises inspected	1941
Number of premises treated — dwellinghouses	649
— other premises	289

(b) The Council provided a contract service during the year to fifty-eight farms and small-holdings.

(c) One operator is employed on this work.

PUBLIC CLEANSING

(a) Refuse Collection and Disposal:

The Service is operated by Direct Labour using a Karrier 12-yard vehicle.

Quantity of refuse collected during year in cubic yards 6,204

Miles travelled 10,259

Consideration is being given to the provision of a compression type vehicle.

Frequency of collection:

Worlingham, Holton and North Cove — weekly
 Remaining villages — fortnightly

Disposal:

Four tips at Holton, St. John, Worlingham and Westhall.

(b) Cesspool Emptying:

Private emptying increased following introduction of free service.

Local Authority emptying decreased due to increased availability of public sewers.

							Number of Cesspools	Number of Loads
Local Authority	158	287
Private	269	424
							427	711

WATER SUPPLIES

Detailed statistics are given in the Medical Officer's Report

The department continued to sample both private and public supplies. Excellent co-operation was maintained with the East Anglian Water Company.

Water Sampling:

Sample	Supply	Samples Taken	Satisfactory	Unsatisfactory
Bacteriological	Private	11	8	3
	Public	11	11	—
Chemical	Private	9	6	3
	Public	—	—	—

SEWERAGE AND SEWAGE DISPOSAL

- (a) There are thirty-three parishes in the Rural District. Eight have sewerage schemes in operation and a further six are in various stages of construction, preparation or consideration.

Although only one Parish sewerage scheme was completed during the year considerable preparatory work was undertaken for three further schemes. Acquisition of land continued to be a slow process.

Sewered Parishes:

	Number of Premises in Parish	Length of Sewers in yards
Brampton	97	1162
Holton	169	3950
Homersfield	57	647
North Cove	69	763
Ringsfield	77	1581
Westhall	108	1379
Wissett	103	732
Worlingham	227	4421

Total 14635

Schemes Under Construction:

St. James	68	—
St. Lawrence with Spexhall	153	—

Schemes in course of Preparation:

Flixton	36	—
---------	----	---

- (b) Total lengths of sewers controlled by Council 8.3153 miles

(c) Sewer Connections:

Connections made during year 75

(c) Sewage Effluents:

Regular field and Laboratory samples of effluents from Council's works continued throughout the year.

Careful attention was given to the maintenance of proper standards of effluent. There was co-operation with the East Suffolk and Norfolk River Board towards this end.
